

Assistant Professor (Research) Yanfu Wei

Department of Environmental Science and Engineering
Faculty of Innovation Engineering
Macau Environmental Research Institute
Macau University of Science and Technology

PhD Supervisor

E-mail: yfwei@must.edu.mo

Tel.: +853 62057394

Academic Qualification

Ph.D. in Environmental Science and Engineering, South China University of Technology.

M.S. in Environmental Engineering, Kunming University of Science and Technology.

B.S. in Environmental Engineering, Kunming University of Science and Technology.

Teaching Area

Environmental Chemistry.

Research Area

Environmental mineralogy, Eutrophication control, Nanotechnology, Adsorption, Catalysis, Biofuels, Diatom, Carbon sequestration in the ocean

Working Experience

- (1) Assistant Professor, Macau University of Science and Technology (Jan 2022 -).
- (2) Lecturer, Environmental School, South China Normal University (Sep 2018- Sep 2021).
- (3) Postdoc, Guangzhou Institute of Geochemistry, Chinese Academy of Sciences. (Nov 2015- Aug 2018).

Research Grants

- (1) FDCT, Influence mechanisms of sulfate reduction on the release of iron-bound phosphorus and its speciation transformation in the sediments of the Macao estuary of the Pearl River, 2022.09.01-2025.09.01, PI.
- (2) FDCT, Research on key techniques for bimetal-solid alkali loaded nanotubular halloysite synergistic catalysis for turning waste cooking oil into green diesel without using external hydrogen, 2022.09.01-2026.01.08, PI.
- (3) NSFC, Phosphorus fixation mechanism of phosphorus-containing vivianite formation and its formation control in Dianchi Lake sediments, 2021.01~2024.12, PI.
- (4) NSFC-INSF, Study on the methods and mechanisms of design of nanotubular halloysite-bimetallic nanohybrid materials for high-efficiency catalytic synthesis of furan-based biofuels, 2022.01-2024.12, PI of sub-project 3.
- (5) NSFC, Interlayer DOM characteristics, microstructural variation and intercalation mechanisms of clay minerals in lake sediments, 2017.01~2019.12, PI.

Conference

- (1) Structural activation of clay minerals and their synergistic mechanism for the removal and recovery of phosphate from wastewater, China Materials Conference 2022-2023, Session: Resource Materials and Recycling, Shenzhen, 2023.7.7-10. Oral Presentations.
- (2) Structural activation of clay minerals and their efficient adsorption mechanism for phosphorus, the 18th Annual Meeting of Society of Chinese Mineralogy, Petrology and Geochemistry, Session: Processes at mineral interface and efficient utilization of mineral resources, Hefei, 2023.4.17-20. Oral Presentations.
- (3) Quantitative assessments of organic matter uncoupling from clay surfaces in presence of salinity, AIPEA XVII international clay conference, Session: Interaction between clay minerals and organic carbon: from natural clay-carbon compound to hybrid materials, 25 29 JULY 2022, Turkey, online. Poster.
- (4) Mechanistic study on the activation of typical 1:1 type clay mineral by lanthanide-based nanoparticles for phosphate adsorption in water, 2019 Users' Annual Academic Conference and Expert Meeting of Beijing Synchrotron Radiation Facility, Session: Diffraction, Scattering and Medium Energy Spectroscopy Society, Dongguan, 2019.8.14-16. Oral Presentations.
- (5) Phenanthrene distribution between carbon nanomaterials and an aqueous phase in the presence of surfactant, The 3rd Asian Clay Conference, Session: Clay and Environment, Guangzhou, 2016.11.18-20. Oral Presentations.
- (6) Yuan Peng, Wei Yanfu, Liu Dong, Liu Hongchang, Zhou Junming, Du Peixin, Song Yaran, Activation of Halloysite and Kaolinite by Introducing Lanthanum Oxycarbonate Nanoparticles via Co-calcination for Efficient Phosphate Removal, 2019 Euroclay Conference, Paris, 5 July 2019.
- (7) Yuan Peng, Wei Yanfu, Liu Dong, Liu Hongchang, Du Peixin, Zhou Junming, Co-calcination activation of structured aluminum in halloysite and kaolinite for adsorption reactions, The 17th Annual Meeting of the Chinese Society of Mineral and Rock Geochemistry, Hangzhou, China, 2019.4.19-22.

2022- Young council member of the Mineral Materials Committee of the Silicate Society, China

2022- Member of the expert committee of the Postgraduate Ideas Competition for Carbon Peaking and Carbon Neutrality in China.

2022- Editorial Board Member, Applied Clay Science (A JCR Q1 journal, top journal in mineralogy)

2022-Early Career Board Member, Reviews of Environmental Contamination and Toxicology (1962-, A JCR Q1 journal)

2022- Editorial board member of *Green and Sustainable Chemistry - Frontiers*.
