

Key priority areas in the university are: (1) teaching and learning, and related to this is assessment. Closely related to teaching is (2) student support, feedback and involvement. Both of these are concerned with quality, so a related issue is (3) quality assurance in the Faculty. For quality to be continuously improved in the Faculty, attention has to be given to its leadership and management (4), also to its staffing and staff development (5) and to research (6). These six areas, then, are the main focus for Faculty Review, with the first three and the last being particularly significant, and with teaching and learning being the priority.

### Χ ΥΑ Α

The Faculty Review and quality assurance in the Faculty must bring real, tangible improvements in the university, not just be paper exercises. Hence, whilst Faculty Review can focus on a whole range of issues, at this present these *six areas* are the main priorities:

- 1. Teaching, learning and assessment
- 2. Student support, feedback and involvement
- 3. Quality assurance in the Faculty
- 4. Leadership and management of the Faculty
- 5. Staffing and staff development
- 6. Research

As Faculty Review is a sizeable undertaking, it is proposed that key points (only) in each of these six areas are identified, and these are set out in the following pages, in the form of a deliberately limited set of: (a) key areas of focus within each of the six areas; and (b) main questions to be addressed.

Within each of the six main areas set out above ((1) - (6)) there are specific sub-areas, thus:

- (a) Key areas of focus (these link to the 7 points mentioned below ((1) (7));
- (b) Key questions (these are the three key questions outlined below((i) (iii));
- (c) Core questions (the core questions are set out directly below);
- (d) Main sub-areas (these vary according to the particular field of the six key areas set out above)
- (e) Summary of key points for each of the six key areas.

### Y 🔊 NAC 🌮 XAA

For the initial Faculty Reviews, there are three key questions to be asked for each area:

ן סישן שן שׁפּ וְּעָסְפּכָשֵּׁס ַ\_סְפּוָחוֹשָׁפּ כֵּיָּץ ון ס do e no nd שo ן פּכָסווֹן ח פֿס no וון ש`ן \_פן n done`oן po פֿפ כשן n e nן n nd e en Cế IN NAC I XA A

There is a *common core* of 9-10 questions that are asked of each main area in the following pages, and some supplementary priority questions,

```
ວີພecoe ຄັງon X eeີວີພepົງເ ີງe o 🧔oe
```

- 1. What are the policies and strategies for X in the Faculty?
- 2. What procedures and processes does the Faculty have for planning, monitoring, reviewing, and developing X in the Faculty? ('*Procedures' are the mechanisms, whereas 'processes' are how the mechanisms actually come to life how they work in practice.*)
- 3. How does the Faculty know and inform itself and stakeholders if these procedures and processes are working/being used?
- 4. Are the procedures and processes for planning, monitoring, reviewing, and developing X in the Faculty in place, operating and effective in meeting the Faculty's stated mission, values, purposes, policies, self-evaluation contents and criteria for the effectiveness of the Faculty?
- 5. How does the Faculty inform itself/stakeholders about how these procedures and processes for the Faculty are effective in terms of outcomes and quality (i.e. impact analysis)?
- 6. How high is the quality of X in the Faculty, and how does the Faculty know?
- 7. How has the Faculty improved X over time, and how does it know?
- 8. What recommendations can be made for needed interventions in, and development of, X in the Faculty?
- 9. What does the Faculty do to monitor and improve X in the Faculty?

NY 🕯 CNACA A

The key foci within each of the six areas, themselves, address have deliberately *common* features to be addressed with reference to each Faculty:
