

# Research Field: GEOPHYSICS, SEISMOLOGY

## Focused Field: SEISMIC WAVE NUMERICAL SIMULATION

### SHORT BIO

I am now an assistant professor at Macau University of Science and Technology. I received my PhD at Institute of Geology and Geophysics Chinese Academy of Sciences in 2017.

My research interests include: i) Seismic wave numerical simulation; ii) Underground structure imaging.

My related research has been carried out on high-velocity impact-induced seismic wave numerical simulation. Combining with the actual observation data and related imaging algorithms, my goals are trying to take research on the internal structure of the Moon and the Mars.

Asst. Prof.

**YINGJIE GAO**

PhD: SOLID GEOPHYSICS

University of Chinese Academy of Sciences  
Institute of Geology and Geophysics, Chinese Academy of Sciences

Bachelor Degree: GEOPHYSICS

China University of Mining and Technology

### PROFESSIONAL EXPERIENCE

- Assistant Professor, State Key Laboratory of Lunar and Planetary Sciences, Macau University of Science and Technology (MUST), Macau, China
- Post-doctoral, State Key Laboratory of Lunar and Planetary Sciences, Macau University of Science and Technology (MUST), Macau, China
- Visiting scholar, Department of Earth and Environmental Sciences, Ludwig Maximilian University Of Munich (LMU), Munich, Germany
- Post-doctoral, Key Laboratory of Earth and Planetary Physics, IGGCAS, Beijing, China
